

LET THE *SALMON RUN* ART PACK

Download and print at home these four salmon that are ready to run!
Color your salmon. Cut your salmon free along the edge of each fish.

There are many creative ways to get your salmon into the world.

SIGNAGE

Glue each salmon onto a piece of cardboard. Once dry, cut the cardboard into the shape of the glued salmon. Attach a stick/dowl/wooden ruler/etc. to the back of your cardboard to use as a hand held sign. To get creative, you can leave extra space on your cardboard to write a message.

WHEAT PASTE

An application technique using a paint brush and an adhesive (such as simmering water, flour, and sugar together to make a paste, can use wallpaper glue as well). Lather your surface with the brush and adhesive where you want to apply the salmon. Lay the salmon down and apply more adhesive to bind the salmon to the surface.

Check out how to wheat paste from the tutorial linked on our website in the resource tab at www.fishbearstudios.com

What else can you come up with?

We would love to see the work and designs you put down on these pages.
